Dear Patrons,

I am presenting You our Library Guide - virtually but with pleasure. In this colourful and illustrated guide You will find all the information about the Széchenyi University University Library and Archives.

In the year 2011 our library had a large change that we, librarians have been waiting for a long time. Tender TIOP 1.3.1 let the University made its greatest development ever: after a longterm planning and waiting we moved to a new building, new environment in February. the Library takes place in the INNO-Share building in 4500 m<sup>2</sup>.

We thought to introduce you not just our present but our past, as well. We show you the beginnings, the continuation and the present with some words and photos that are the most important to our patrons. The guide guides you through the library, introduces its services.

I am asking You to read it through and if you have any questions or comments, aak our colleagues personally or via e-mail.

We are gladly at your disposal!

# Where can I find the MTMT identifier?

Please Search in Connect panel! Choose ORCID and Give Your ID.

The image shows two overlapping windows from a software interface. The top window is titled "Add new: Author Identifier" and contains three input fields: "Author Identifier: \*", "Source: \*", and "Comments:". The "Author Identifier" and "Source" fields are empty and have a red border with a red exclamation mark icon and the text "This field is required" below them. The "Source" field has a search icon, a share icon, and a close icon on its right side, which are circled in red. The bottom window is titled "Connect: AuthorIdType" and has a "New" button at the top. Below it is a search bar with the text "Search..." and a "Search" button. A list of identifier types is shown below the search bar:

- AAT ID

# How can be visible internationally?

## International identifiers

# Why is it important for You?

- **Clarification:** e.g. different variants of names, abbreviations.
- **Linking:** within and between databases.
- **Link to further publications of the author** (increase findability and citability).
- **Facilitate collaborations and research networks** (facilitate cooperation across borders).
- **They give visibility not only to the authors but also to the publication activities of their institution.**

## Create your ORCID iD

This is step 1 of 3

Per ORCID's [terms of use](#), you may only register for an ORCID iD for yourself. Already have an ORCID iD? [Sign In](#)

 ? ?

## Open Researcher and Contributor ID

<https://orcid.org/>

- 16-digit identifier = author's "personal number"
- Used to standardise names and variants of names
- Increases international visibility
- This identifier is outside out from databases
- On the Author data sheet: e-mail address, workplace, research, grants and publications appear.
- Publications with DOI are automatically displayed
- Data can be migrated from MTMT and You can be kept up-to-date

## Registered profile/Sign in

You can register without an author profile (without a registered Scopus publication).

**Registered profile does NOT equal to Author profile**

## After registration if you have (Author profil) Scopus registered article

- You can edit your author profile if you already have a Scopus-registered publication
- Author merging is also possible here
- You can also use other settings as you can see below.

## After registration without Author profile:
